GIVE A GIFT THAT GIVES BACK

Have you ever thought about giving a chicken as a stocking stuffer or wrapping up a promise to bring and/or serve a meal to the homeless, hungry and hurting? You can.

On Sunday, December 3, from 8:30 a.m. to 12:00 p.m., SMPC will host the 2017 Alternative Gift Market in the halls surrounding the sanctuary, providing an opportunity for you to find the perfect gift that honors not only your loved ones and friends, but at the same time gives back to the local community and supports global missions.

Please be sure to take the time to visit the many display tables, of which several are represented by the organizations featured. There will also be giving opportunities for OFCB, Presbyterian Disaster Assistance as well as Rise Against Hunger in the parlor.

Additionally there will be a Children's Market with more modestly priced gifts, an opportunity for parents to share the joy of giving with their little ones. With each purchase you will receive a gift card and note that can be given to your recipient acknowledging the gift made in their honor.

Cash, debit and credit cards accepted as well as checks made out to SMPC.

LOCAL COMMUNITY OUTREACH GIVING OPPORTUNITIES

A CHILD'S PLACE

A Child's Place is a grassroots nonprofit working to erase the impact of homelessness on children and their education in Mecklenburg County, NC. All children are at risk of failure but those experiencing the chaos of homelessness are at the greatest risk of falling behind in school. A Child's Place works to resolve the student's immediate basic needs for food, clothing and shelter while creating a case plan that supports their continued focus on education in one of our partner schools. They also assess and advocate within and on behalf of the student's family to resolve issues that led to the family's immediate homeless crisis. This unique partnership of student and family advocacy creates a holistic approach encouraging our students to stay focused on their education, develop a passion for learning and use the power of their education to change their lives. During the 2016-2017 school year, A Child's Place provided support to 2,173 area children and 801 parents/adults.

Emergency financial aid helps prevent eviction and utility loss for families in financial crisis with payments made directly to utility companies and landlords. Volunteer Opportunities:

Donation Door Attendants help donors in the Donation Drive-Thru by receiving donations and sharing genuine appreciation for material goods donations for the Free Store

Inspectors help inspect, sort and prepare donated clothing and household items for distribution to people in need through the agency's Free Store. This volunteer activity is available to individuals and volunteer groups and is available Tuesday thru Saturday 9:00 a.m. - 4:00 p.m.

Free Store volunteers help customers check-in and check-out and help keep inventory stocked for families who shop "free-of-charge" for essentials.

Relocation assistance volunteer groups move furniture and other household items (as available) from Crisis Assistance Ministry into the formerly homeless family's new residence (includes loading and unloading). Volunteers are asked to provide a rental truck or organization/personal vehicles to actually transport the items.

Breakfast or Bagged Lunch Ministry teams provide food and beverages to people waiting for emergency aid at Crisis Assistance Ministry, a wonderful way to make a stress-filled day a little easier for people threatened by homelessness.

Clerical work and administrative support helps each department across the agency make the most of our resources. Tasks include data entry, filing, help with mailings and other clerical tasks.

Clothing, Furniture and Housewares Drives conducted by volunteer groups help secure donations of furniture, appliances, and other household items to be distributed through the Free Store and Furniture Bank.

HABITAT FOR HUMANITY

Since 1983, we have partnered with more than 1,700 families in need of decent, affordable housing. Our mission is achieved through two distinct programs:

- Home Ownership
- Critical Home Repair

The traditional Habitat model of building new homes with volunteer labor in partnership with families remains the foundation of our mission. The houses are sold to partner families at no profit and are financed with affordable, no-interest mortgages. Through sweat equity and homeownership classes, partner families commit to the homeownership process before closing on the house and achieve for themselves the life-changing impact of homeownership.

Critical Home Repair provides urgent, major repairs for low-income homeowners whose homes have fallen into serious disrepair. The program improves home safety, helps preserve Charlotte's affordable housing stock and stabilizes neighborhoods. Last year Habitat Charlotte provided affordable housing solutions for over 134 local families.

- **\$10 Habitat Holiday Card**
- **\$14 – Julia's Coffee, Roasted by Magnolia Coffee. Julia's Café and Books is a fundraising division of Habitat Charlotte that not only has a great selection of books but also serves delicious coffee!**
- **\$25 One can of paint and a paintbrush.**
- **\$50 One interior door in a Habitat home.**
- **\$100 Provides the financial curriculum for one Habitat family who is attending our homebuyer education classes in preparation for homeownership.**

Volunteer Opportunities:

Habitat Charlotte's work would not be possible without volunteers. The quintessential Habitat volunteer experience is working at the construction site. Special skills are not needed for volunteers to work with our construction program, as Habitat staff members are on site to train volunteers and maintain a safe experience. In addition to the construction program, there are other volunteer opportunities at Julia's Cafe & Books and all three ReStore locations. All volunteers must be 16 or older.

PROJECT 2 HEAL

Project 2 Heal is a non-profit organization that breeds Labrador Retrievers for the best health and temperament and donates them to ADI (Assistance Dog International) approved service dog organizations across the country as a way to help them reduce the cost and time involved in making placements to their clients. Project 2 Heal provides early training to all pups starting as early as two days old. The success rate of Project 2 Heal puppies graduating as service dogs is an astounding 80%.

Project 2 Heal also trains a select number of dogs as skilled companions for local children and adults with special needs as well as wounded Veterans.

Our goal is to utilize the healing power of Labrador Retrievers to increase independence in mobility-impaired individuals and to provide emotional healing for children with special needs and wounded warriors.

Our vision for the future of Project 2 Heal includes creating a facility on more than 50 acres on the outskirts of Charlotte that will draw people from around the country. The facility will be much more than a venue where service dogs and skilled companion dogs will be bred and trained. It will be a place where the Charlotte community can work together with man's best friend to make the world a better place. It will be a focal point for visitors of the Carolina Piedmont region. It will be a place where children with special needs can come for therapy and where neuro-typical children will come to understand the challenges faced by children with special needs, using the dog as a "social lubricant" in order to create a bridge of acceptance.

GLOBAL MISSION GIVING OPPORTUNITIES

HAITI: OFCB MINISTRIES, BAYONNAIS

SMPC has been supporting OFCB since its inception in 1994. The school began that year with 105 students. Currently there are 2000 students in 3 locations. In addition to the K to 13 grade classes on the main campus, there are K-6 schools in the mountain towns of Nicolas and Zoranger. Some graduates are in Haitian colleges. Others have returned to teach, preach, be agronomists, nurses, etc. Their 5 year old medical clinic was the first in Bayonnais for 80,000 people. There are now three nurses and a dentist, all OFCB graduates. A medical laboratory was added over 3 years ago. The specialty of Dr. Dupiton, the new director of the clinic, is General Practice and he has also worked in Emergency Medicine.

Families in Bayonnais are very poor. A traditional way we have helped is by giving animals for families to raise. The offspring of these animals are sold to increase the family income. There are also many other important ways to help the people. Three health related options are: a day's salary for a clinic nurse, supplies for the clinic and children's chewable vitamins. The vitamins go to the satellite K-6 schools in Nicolas and Zoranger and to especially undernourished children who come to the clinic. Farming is the primary occupation of most of the residents of Bayonnais. Providing a farm tool to a poor farmer will help him or her to increase their family income. The meal which is served to the children at the school is often their only meal of the day. School food is purchased in part from the World Of God sponsoring program but that is not sufficient to cover the entire school population, since only about 1/4 of the students are currently sponsored. Funds to purchase school food are supplemented with donations specifically designated for this purpose. Scholarships for students to attend the OFCB school or advanced education are important to the future of OFCB.

Photographs from David Knoble's upcoming book about his trip to Bayonnais are also available, pricing is set per item.

* Funds may be used in other categories when appropriate. For example, chicken funds may be used to purchase goats.
